

L-Series engines

Isuzu Motors America, Inc.

Description

The Isuzu 4L-Series is an incredibly durable industrial diesel engine and employs many of the advantages of larger engines, such as 8L and above. Features including a closed crankcase vent system, gear driven timing train, uniting pumps, and direct injection keep this model clean, quiet, and efficient.

- 4-cylinder, 4-cycle, water-cooled, OHV, vertical in-line, indirect & direct injection
- Tier 2 Certified
- 12-Volt electrics standard, 24-Volt optional
- 5-Year/5000-Hour warranty
- 1-Year/1800-Hour export warranty (available in select markets)
- Isuzu-designed accessory kits available

Features

High Output, Low Fuel Consumption & Low Emission

- 4L-Series IDI and DI 2.2L
- Re-entrant type combustion chamber new line independent injection pumps

Light Weight & Compact Size

- Full Siamese cylinder block
- Integrated speed governor
- Short length
- Uniting pumps
- Modular intake manifold/valve cover

Low Noise

- Small module helical gear
- Tuned intake system (air)
- Curved gear case
- Structured block

High Reliability, Durability & Flexibility

- Gear-driven timing train
- Thermatic piston
- Steel laminate cylinder head gasket
- Fewer moving parts
- Low maintenance cost
- Side maintenance – right hand side
- Variety of dipstick heights
- Optional oil fill locations
