

BULLY DOG

#1 IN PERFORMANCE

gauge **GT** tuner

DIESEL

Product info sheet version: 2.1

GT Gas Software Version: 1.1.0.6

The Triple Dog Gauge Tuner is a vehicle engine tuner, monitor, gauge and diagnostic device all in a single unit. The GT dramatically improves the utility of several vehicle applications by providing an increase in horsepower and torque and by improving fuel economy through better engine tuning. The GT monitors and displays over fifteen different vehicle parameters (PIDs) and it includes our all new Driving Coach feature which teaches end users to maximize their vehicles fuel economy potential. The GT performs vehicle diagnostics by reading and erasing diagnostic trouble codes; this level of vehicle transparency isn't offered by any OEM or by any other aftermarket product. Also included is our performance testing feature designed to test a vehicles performance capability on the drag strip; couple this with our Free PC analysis software and users can also determine vehicle horsepower. The GT does it all and it works on most late model diesel pickups including Dodge, Ford and GM.

FEATURES INCLUDED:

- Huge horsepower and torque gains (over 100 hp)
- Improved engine efficiency (fuel economy potential)
- Four On-the-fly power levels
- Safety Defueling
- Loads of download features ie. Speedometer calibration
- Display over 15 vehicle parameters (PIDs)
- Read and Erase Diagnostic Trouble Codes (DTCs)
- Vehicle Performance Testing (including drag tree)
- Free Performance Testing Software for PC online
- Exclusive Driving Coach feature, Patent Pending
- Full Color display with multiple color themes
- User set daytime and nighttime driving modes
- Easy Installation
- Free internet updates and upgrades
- Initiate DPF burnoff on '09 GM and Dodge diesel

WHITE KNUCKLE ENGINE TUNING: HORSE POWER THAT YOU ARE GOING TO LOVE.

Hold on tight because Bully Dog provides the best engine tuning in the market place. Our mainstay and the entire reason we are in this business is to provide high quality engine tuning aimed at improving your driving experience. Proper tuning is key to achieving that teeth gritting adrenaline pumping horsepower so we place our focus in tuning all applicable vehicle systems, not just peak horsepower. We tune vehicles to perform at every point in the RPM range and we always look to other areas of improvement such as the transmission so you can experience excellent performance in any driving situation you encounter. Just take a look at the dyno chart below.

The dyno chart below represents a stock test run performed on a chassis dynamometer vs. Test runs performed using the extreme tuning and the extreme tuning with a Bully Dog intake installed. This test was performed on a 2009 Ford F250 6.4L Power Stroke. Just an example of what Bully Dog's premium engine tuning can do and what comes with your GT.

+ 155.7 Horsepower
+ 387.4 lbs. ft. Torque

IMPROVED FUEL ECONOMY: THE PERFECT JUSTIFICATION.

So is it really true, will this product give you improved fuel economy? The answer is: Heck Yes, but only if you drive conservatively. If you have your foot to the floor everywhere you go you are liable to see a significant decrease in fuel economy. That is why we can't say for sure how much of an improvement this product will provide because it all comes down to the driver and their individual driving habits. It is true however that due to the engine tuning process better fuel efficiency results as a by-product of added horsepower.

If improved economy is the only reason you are interested in this product or if improved economy is just the reason you need to convince your significant other, then this product will be a great addition to your vehicle. Not only do we offer awesome tuning to boost fuel economy we also offer the Driving Coach software which helps you analyze your vehicles fuel economy and your personal driving habits. The Driving Coach feature will help you make improvements to your personal driving habits and/or track how other vehicle add-ons are having an effect on your vehicles fuel economy. The end result is that this product is an excellent tool for improving fuel economy, and if you are dedicated to improving fuel economy and you use this product for improving fuel economy that you will get great results. Just don't forget about the horsepower, because its alot more fun.

SPECIAL FEATURES (DODGE ONLY):

The list below which outlines the special features included in the GT diesel that are not guaranteed to work on every vehicle due to unforeseen differences between individual OEM vehicles.

Special Features

Engine Tuning	Dodge 5.9L/6.7L Cummins '03-'09
Auto Door Lock	X
Set Head Lamp Delay	X
Horn Chirp On Lock	X
Optical Chirp On Lock	X
Unlock Driver Door	X
Seat belt Minder Chime	X
Accessory Delay	X
Fog Lights W/High Beams	X
Day Time Running Lights	X

PERFORMANCE TESTING :

The GT performance testing will accurately calculate and record a vehicles 1/4 mile times and everything in between. The performance testing allows the user the ability to trigger a performance test based upon when the vehicle begins rolling or based on a custom designed drag racing tree that is displayed on screen.

DISPLAY AND RECORD PERFORMANCE RESULTS:

- 60 ft. Time
- 0-60 mph time
- 1/8 mile time
- 1/8 mile speed
- 1/4 mile time
- 1/4 mile speed

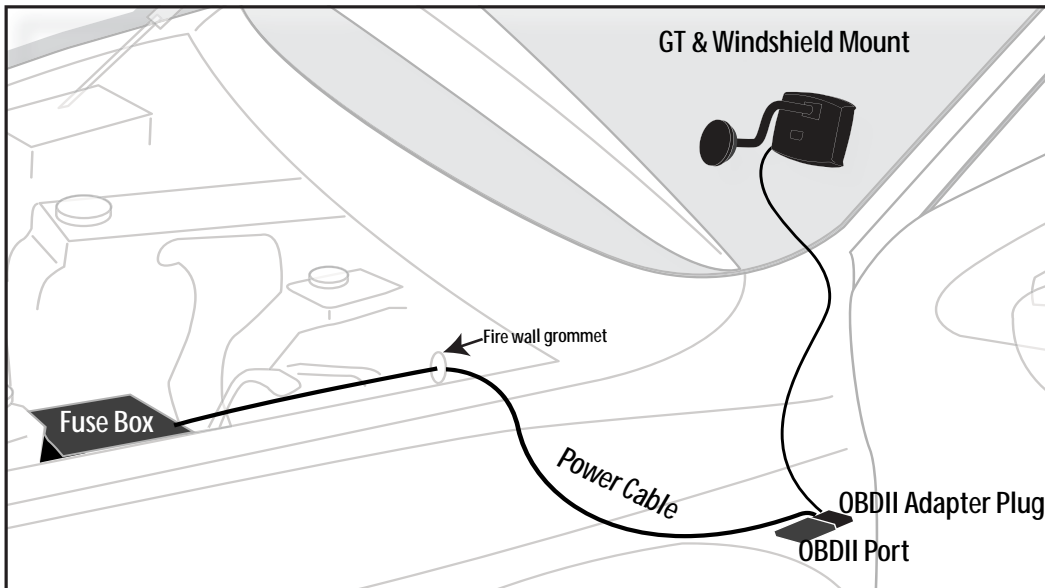

FREE PERFORMANCE ANALYSIS SOFTWARE

Free PC software program will download performance tests that were performed on the GT to a PC and allow the user to analyze their performance runs. Analyze speed curves, RPM, horsepower and torque and even get a time slip that is printable and can be emailed. Now available at www.bullydog.com

EASY INSTALLATION: THE GT INSTALLS IN ABOUT 10-20 MINUTES

The GT doesn't require any tools and only takes 10-20 minutes to install. This product is easier to install than a home DVD player and far easier than a car stereo. Once the physical installation is complete the download process only takes a few more minutes and is practically hands free.

GT MOUNTING OPTIONS:

The GT comes with the universal windshield mount. The universal mount is a way for us to ensure that everyone who purchases our product has an option to mount the product upon purchase. We realize that there are many of you out there who like to customize and so we have designed a 2 1/16" custom T-Slot gauge mount adaptor so the GT can be mounted in a gauge pod.

Custom T-Slot makes it possible to mount the GT to a 2 1/16" gauge pod as seen above. Gauge pods are sold separately.

EXTRA

The GT has the capability of monitoring choice such as exhaust gas temperatures with the addition of the GT Pyrometer kit.
